

Maryculter, Manse, 25th May, 1859

My Dear Nephew,

I wrote very soon after I received your letter of the 9th Oct^r last enclosing your portrait. After that I wrote again mentioning that an accident had befallen the plate or whatever it was on which the photographer in Aberdeen had taken likenesses of my young-niece and myself. We have again sat, and I herein enclose what he has taken. He has not been successful in taking these photographs, particularly in that of my niece, which is far from like. In regard to the one for myself, there is in it too much largeness in the mouth, and a certain gloominess of aspect. However, I send the photograph, such as it is - and you will thus see my willingness to gratify you. But you will not know our appearances till you be able, if it please God, to come and see us.

I would like to hear if this letter with its enclosure, such as it is, reach you in safety - and to be informed how you all are. I sent your mother an Aberdeen Journal not very long ago. I have also received from time to time a number of papers from Canada. Please present our kindest regards to both Mr T Bowers and other relatives. I am

My Dear Nephew
Yours ever affectionately
John T Bowers
